Non-K9 Handler/Officers are encouraged to attend this class as decoys. If you wish to attend as a decoy, the cost of the class is only \$295. and you'll receive a certificate from HITS Training and Consulting for the hours.

HITS Training & Consulting is hosting an intensive three day training course for **ALL** Law Enforcement officers. This 24 hour training course is designed specifically for patrol dog handlers interested in learning more about how to train with the power collar or how to advance their basic skills and understanding that they already have of the power collar.

HITS Training & Consulting will train you how to use the power collar as well as unique training concepts and techniques to bring more control, focus and mental clarity to your high drive patrol dog during aggression work.

We will also introduce handlers to-

- The use the power collar for off lead movement during high stress
- K9 direction control as a foundation to off lead tactical searches using the power collar
- Motivational K9 training techniques which work in conjunction with the power collar

Many Patrol dog handlers who use the power collar are hesitant about expanding its use into other aspects of their K9 training, apart from aggression control or to curtail various displays of unwanted behavior. Our instructors use motivation and compulsion to achieve faster and more reliable training results and their methods are explained and practiced by each K9 team attending the seminar. Let us end the confusion about the effectiveness of using a power collar. Learn the dynamics of the power collar and how it will advance your tactical deployment capabilities through control and K9 responsiveness.

It is our policy that all attendees who actively participate in the class must be in an on duty status with their law enforcement agency and covered by their worker's compensation insurance.
